This study tour, organized in partnership with a recognized Canadian university, is an exclusive five (5) days program covering the latest developments in public administration and governance.

Participants will have the opportunity to attend several conferences and insightful dialogues with recognized international experts, former ministers and renowned academics. The study tour combines the aforementioned conferences with institutional visits so as to allow the participants to conduct productive exchanges with Canadian officials of all three levels of government (municipal, provincial and federal) and identify concrete good practices and systems to be put in place.

All activities are hosted by SETYM International in cooperation with the School of Management of the Université du Québec à Montréal (ESG-UQAM).
